SUMMARY

Front-End Developer with 2 years of experience building fast, responsive web apps with **Next.js**, **React 19**, **TypeScript**, and **Tailwind CSS**, extending into full-stack delivery with **PostgreSQL**, Prisma, Drizzle, and Supabase. Solo-built Orderly, a multi-tenant restaurant SaaS with real-time orders, role-based dashboards, offline-first PWA, AI menu tools, and Arabic/English RTL, and delivered a production website with admin CMS for a security research company.

EXPERIENCE

Full-Stack Developer (Freelance) — Zerodroid Labs

zerodroid.io · [LinkedIn](#) | Sep 2026 – Oct 2026

Next.js 16 · React 19 · TypeScript · Tailwind CSS v4 · Drizzle ORM · Neon PostgreSQL · Auth.js · Zod · Resend · UploadThing · GitHub Actions

- Built the production website and a separate **admin CMS** for an offensive security research company, end to end from database to deployment.
- Public site: advisories database, research articles with tag filtering, publications, and team profiles, with dynamic OG images, JSON-LD, sitemap, and RSS.
- Admin dashboard with Markdown editor, Shiki syntax highlighting, and image uploads; **GitHub OAuth** with owner/member roles checked inside every Server Action, plus an **audit log**.
- Instant publishing without redeploy via tag-based cache revalidation; contact form secured with Zod, rate limiting, and a honeypot; **CI** running lint, type-check, build, and gitleaks secret scanning.

PROJECTS

Orderly — Multi-Tenant Restaurant POS & QR Ordering SaaS **SOLO-BUILT SAAS**

[Live Demo](#)

Next.js 16 (App Router, Server Actions) · React 19 · TypeScript · Prisma · PostgreSQL (Neon) · Tailwind CSS · Zustand · Pusher · next-intl · Serwist (PWA) · Gemini API · Unsplash API

- Sole developer of a complete, production-ready SaaS: QR menu ordering for guests plus role-based dashboards for **Admin, Cashier, Kitchen, and Waiter** with server-side permission checks.
- Multi-tenant data model of 20+ Prisma entities (orders, shifts, cash drawer, inventory, subscription billing) with strict per-tenant isolation.
- Real-time** order sync with Pusher, and an **offline-first PWA** (Serwist + Dexie/IndexedDB) that keeps menus and carts usable when the connection drops.
- AI menu tools** (Gemini): one-click dish descriptions, Arabic ↔ English translation, and digitizing a paper-menu photo into database items; full Arabic/English RTL, thermal receipt printing, Unsplash image search.

Zawwaqa — Restaurant Discovery Platform

[Live Demo](#) · [GitHub](#)

Next.js · TypeScript · Tailwind CSS · Supabase · Google Maps API

- SSR, SEO-friendly pages with multi-criteria search and filtering (URL-synced state), Google Maps browsing, and Supabase-backed reviews and ratings.

Exclusive — Full-Stack E-commerce Store

[Live Demo](#) · [GitHub](#)

Next.js · React · Tailwind CSS · Supabase Auth · REST APIs

- Full shopping flow (catalog, product details, cart, checkout) on a mobile-first layout, with Supabase Auth, protected routes, and persisted cart state.

XStore — E-commerce SPA

[Live Demo](#) · [GitHub](#)

Vite · React · Redux Toolkit · Axios · Tailwind CSS

- SPA with client-side routing and a Redux Toolkit store for cart, filters, and user state; faster loads via code splitting and lazy-loaded routes.

More: OrderEasy (React, Firebase ordering with admin panel) and 7 responsive corporate sites. [View all](#)

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frameworks & UI: React 19, Next.js (App Router, Server Components, Server Actions, SSR/SSG/ISR), Vite, Tailwind CSS, Radix UI, Framer Motion, a11y, RTL/Arabic localization

State & Data: Zustand, Redux Toolkit, Context API, SWR, REST APIs, Axios

Backend & Database: Prisma, Drizzle ORM, PostgreSQL (Neon), Supabase, Auth.js (OAuth), JWT, Zod, Route Handlers, webhooks, cron jobs, Resend

Real-Time, Offline & AI: Pusher/WebSockets, PWA & Service Workers (Serwist), IndexedDB (Dexie), Gemini API

Tools: Git, GitHub, GitHub Actions (CI), Figma, Postman, Vercel, Netlify, Chrome DevTools, ESLint; AI-assisted development (Claude, Copilot, v0)

TRAINING, EDUCATION & LANGUAGES

Front-End Bootcamp — Huma-volve (1 week): code review, Git workflow, Postman, Figma-to-code · [Certificate](#)

Sep 2026

Bachelor of Management Information Systems — Higher Institute of Advanced Studies

2024

Languages: Arabic (Native) · English (Professional working proficiency)
